

## Water Meter Replacement Financial Assistance Application

The Village of Riverside will be replacing all water meters throughout the Village over the next few years. Residents will be notified when Village staff would like to schedule their replacement. The Village has adopted a tiered approach to paying for water meters. For residents that have replaced a water meter in the last 10 years, the Village will cover a portion of the new meter cost, spanning in 10% increments.

For those experiencing economic hardship, it is possible to have the costs of your water meter covered. Residents must provide the Village with **proof of eligibility** or enrollment in any federal, state, or local financial assistance program. Disabled Veterans and Prisoners of War (POWs) qualify for free water meter replacements as long as a **VA Benefit Summary Letter** is provided.

Please return this form along with supplementary documentation the Village Finance Department, located at 27 Riverside Road, Riverside, IL 60546. Please call the Department with any questions at (708) 447-2700
